

# Account Self-Service Quick Reference Guide

Using the Account Self-Service Portal

## Password Change / Update Process

1. Open the Google Chrome Web Browser and navigate to [pss.epa.gov](https://pss.epa.gov).
2. Select “Change/Update My Password” in the Password Self-Service Console.

**Password Self-Service Console**  
EPA Personnel  
(For Employees & Contractors)

Need help signing in?

[View the Account Self-Service Quick Reference Guide \(pdf\)](#)

If you do not have your PIV Card (Badge) or are unable to access *Account Unlock* or *Change My Password*, you will need to [submit a ticket to the Enterprise IT Service Desk \(EISD\)](#) or dial 866-411-4EPA (4372).

3. In the “Select a certificate” dialogue box, select the appropriate certificate and continue by selecting “OK”.
  - a. If you are presented with multiple certificates and are unsure which certificate to select, then select one of the certificates and then select “Certificate information”.

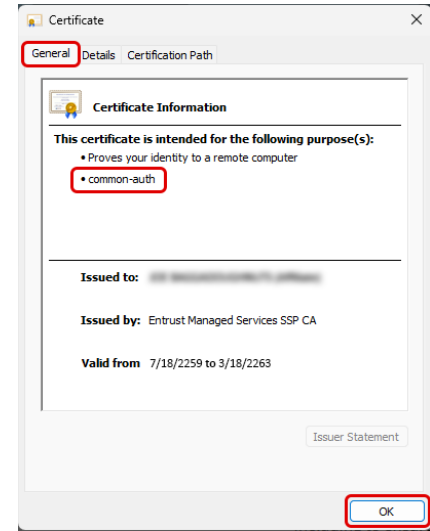

Select a certificate

Select a certificate to authenticate yourself to idp.epa.gov:443

Subject	Issuer	Serial
ICE BAGGADOUHPLUTS	Entrust	00000000000000000000000000000000
ICE BAGGADOUHPLUTS	Entrust	00000000000000000000000000000000

[Certificate information](#) OK Cancel

- b. In the Certificate Information dialogue box, select the “General” tab. If “common-auth” is listed as one of the intended purposes, then this is your certificate. Select “OK” to close the dialogue box. Select “OK” again in the “Select a certificate” dialogue box. Continue to step 4 of this guide.
  - c. If the certificate you selected does not state “common-auth” listed under intended purposes, select “OK” to close and try another certificate. Repeat steps 3a and 3b for each certificate until you have identified the correct certificate.
4. Enter your PIN in the Windows Security dialogue box and select “OK”. **Note:** For Virtual Smart Card users, ensure that the smart card option is selected in the “Select a certificate” box and enter your PIN.
  5. When the New Password page has loaded, enter your new password into the “New Password” field and verify it by entering the same password again in the “Confirm Password” field. The “User ID” field is auto populated based on the PIV card you used to access the system.

Please enter a new password below.

User ID: [redacted]

New Password:

Confirm Password:

Submit

Must not contain your username or any part of your full name that exceeds two characters (Example: cannot be 'SMI' if your last name is 'SMITH').

Must be different from previous 24 passwords or a ConstraintViolation error will appear.

Password length must be a minimum of 12 characters

and contain characters from 3 of the following 4 categories:

- At least 1 digit (0-9)
- At least 1 symbol (~, !, @, #, \$, %, =, +, <, >, /, ?)
- At least 1 UPPERCASE English letter (A-Z)
- At least 1 lowercase English letters (a-z)

Warning: Administrative Password Resets on Active Directory accounts may cause unintended results resulting in loss of access to data or resources. Administratively resetting a password may affect Web page or File share credentials, EFS-encrypted disks, files or personal certificates with private keys (e.g. signed/encrypted e-mail). Please check with your help desk personnel if you use certificate based encryption for Files, disks or email prior to resetting a password.

Restart Login

**Your new password must meet the following criteria:**

- a. Must not contain your username or any part of your full name that exceeds two characters (Example: cannot be 'SMI' if your last name is 'SMITH').
- b. Must be different from previous 24 passwords or a Constraint Violation error will appear.
- c. Password length must be a minimum of 15 characters
- d. and contain characters from 3 of the following 4 categories:
  - i. At least 1 digit (0-9)
  - ii. At least 1 symbol (~, !, @, #, \$, %, =, +, , /, ?)
  - iii. At least 1 UPPERCASE English letter (A-Z)
  - iv. At least 1 lowercase English letters (a-z)
- e. Must be different from the previous 24 passwords you have used.

**Warning:** Administrative Password Resets on Active Directory accounts may cause unintended results resulting in loss of access to data or resources. Administratively resetting a password may affect Web page or File share credentials, EFS-encrypted disks, files or personal certificates with private keys (e.g., signed/encrypted e-mail). Please check with your help desk personnel if you use certificate-based encryption for Files, disks or email prior to resetting a password.

If your new password does not meet the criteria, you will be presented with a Constraint Violation message.

Password was not changed due to recent password use policy Exception: ConstraintViolation

6. Verify you are still connected to the EPA Network by opening Zscaler and verifying the service status is set to "ON".
7. Lock your computer (press CTRL+ALT+DEL and select "Lock" from the provided options).
8. Sign back in to your computer using your PIV Card and PIN.
9. The process is now complete.
